

Kraft introduces

The Cheddar and Mozzarella slice.

With the pull-apart stretch that's more fun to eat.

Kraft introduces a fun, new cheese slice that gives you a thick and stretchy melt for an eating sensation no American slice can match.

That's because it's made with a combination of natural cheddar and mozzarella cheeses for a slice with the hearty taste of cheddar and the full bodied stretch of mozzarella. And, it's more fun to eat because this extra thick slice pulls apart into an irresistibly stretchy, cheesy melt.

This pasteurized process cheese slice is individually wrapped for freshness.

Put more fun into your next grilled cheese sandwich, burger or any other hot sandwich by using the cheese slice that has a stretchy, pull-apart melt.

Ten extra thick 1.2 ounce slices come in each 12 oz. package, priced at about \$2.49.
